ATTENTION DEFICIT DISORDER TREATMENT CONTRACT

Date: _____

Patient Name: _____

Date of Birth: _____

This establishes the expectations of Timarron Family Medicine (TFM) upon patients being treated for all forms of Attention Deficit Disorder (ADD):

- 1) The only place patients may receive prescriptions managing their ADD is Timarron Family Medicine.
- 2) Timarron Family Medicine staff will verify when prescriptions have been filled, and who the prescriber was, using the PMP Aware website.
- 3) Patients are expected to be seen in the clinic for their ADD at a minimum of once every four months. Patients receiving 90 day prescriptions (according to their insurance carrier) may be requested to come in at 90 day intervals. Patients failing to keep these follow up appointments will not receive a prescription until they are seen. Patients who repeatedly no-show may be required to follow up monthly.
- 4) In the months between office visits you may request your refills by using the Patient Portal; or by phone if the Portal is not available. The request should be made not less than 24 hours, and not more than 3 days, prior to the date the prescription is needed. We will make efforts to ensure a signed prescription is available for patients who will need them during Physician absences.
- 5) Requested refills will be available the next business day after they are requested.
- 6) Please note that all (controlled) ADD medications require a Physician's physical signature, and they may not be called into a pharmacy.
- 7) Patients may be subjected to random screening to ensure compliance with management.

By signing this form I am acknowledging my awareness of this policy, and my agreement to follow it.
